

THE ART OF BLAS GALLEGO

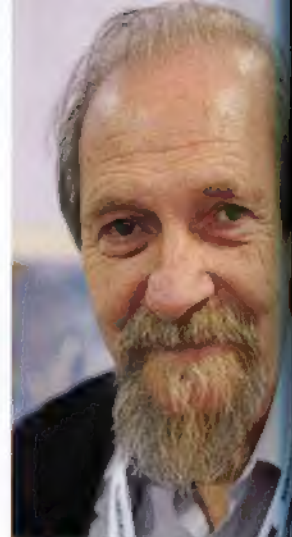

VOLUME ONE

FANTASY ART: MASTER CLASS

**Blas Gallego
instructs and
delights with every
line and brushstroke.**

To excel as an artist, one must have talent, imagination, and above all - a passion for the work. In a profession overflowing with pretenders and wanna-be's, only those who are truly innovative and original can carve out a career and be recognized for their work. Blas Gallego has made multiple marks in this regard.

Self-taught and fiercely independent, Blas began his professional life working for a film publicity company. Three years later, with experience and a hefty portfolio, he left to create his own agency, forging a reputation for excellence that has served him well.

Not satisfied to limit himself to advertising, Blas branched out to do book cover paintings, which allowed him to revel in sword & sorcery, science fiction, and barbarian subject matter - a full and freeing use of his imagination. He could also indulge in more adult fare, creating erotic art that's become highly sought-after.

His following of fans and collectors are as diverse as the artist, since Blas also creates paintings for the fine arts, with upscale gallery showings (and gallery prices) around the world.

With a career as long and diverse as Mr. Gallego's, this collection will give you merely an overview of his myriad talents - but then, you have to start somewhere!
